MIN. CARRIE NATION.

Now there's Miss Carrie Nation. Who has raised a confounding; In the "pious" there's devotion.

And the mischief is to say; And forthwith she has a habit; And "bug" you couldn't match it.

There's no one to try to snail it; For Miss Carrie has no fear; When she salutes forth to snail it.

The policemen all refuse it; For they don't propose to choose it; From the hand that knows no fear.

So Miss Carrie has the street, sir; All the "company" they refuse it; For the foe they don't meet it.

When she's hunting for the beer; So she enters proud and stately; To the "joint," so lively, lately; Now transformed, forthwith, sedately.

To a "church" house as to wine; Than the ladies her most "premiere"; Which the blacksmith, thrifty, made her.

When she's out for a night; For your scalp you'll have to pierce; So she enters proud and stately.

RIVER NEWS

The Corrier will be up tonight for Pomeroy.

The Bonanza is due down tonight from Pomeroy.

This is the "Frank's" night for Cincinnati from Ironton.

It will take at least three feet of ice to float the Joe Williams.

About 4,000,000 bushels of coal left Pittsburgh yesterday in barges.

The ice gorges above moved out yesterday without doing any damage.

The Keystone State will pass down tonight from Pittsburgh. She has a large trip.

Most of the coal loaded at Pittsburgh is in heavy coals, there being at least 20,000,000 bushels.

The Exporter was in Cincinnati harbor Monday with a small tow. She was formerly the John Gilmore, and was in the St. Louis harbor when the cyclone struck that city three years ago.

This is her first appearance in this part of the river since her rebuilding and renaming.

River men were dumfounded when they learned that Congress had failed to pass the River and Harbor Bill.

The rivermen had come to the conclusion, late last week, that Congress would pass the measure, but the failure of that body to do so places the improvements contemplated in the Pittsburgh district in a deplorable condition.

It has been officially announced by the Kanawha and Ohio Co. Company that an order had been given for the building of a light and small, but powerful, towboat.

Her dimensions will be 16 feet long, 30 feet wide, and feet between the timbers. Her cylinders will be 12 and 24 inches.

The boat will have compound condensing engines.

Stop that cough by using Ray's Cough Syrup; it's guaranteed.

TORTURING ITCHING BURNING HUMORS

ITCHING BURNING AND SCALY ERUPTIONS OF THE SKIN SCALP AND BLOOD WITH LOSS OF HAIR CURED BY CUTICURA

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworms; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That CUTICURA remedies are each stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humor remedies of the civilized world.

Complete Treatment \$1.25

The treatment is simple, direct, agreeable and economical, and is adapted to the youngest infant, as well as adults of every age. Bathe the affected parts with hot water and CUTICURA SOAP to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply CUTICURA OINTMENT freely, to allay itching, irritation and inflammation and soothe and heal, and lastly take the CUTICURA RESOLVENT to cool and cleanse the blood. This sweet and wholesome treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humors of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and even the best physicians fail.

Millions of Women Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for beautifying their skin, for softening of every skin, and whitening red, rough hands, in the form of baths for annoying irritations, for too free of offensive perspiration, for the relief of itching, burning and scaly humors, for minor ailments, and for all the purposes of the toilet, bath and laundry. CUTICURA SOAP is the ONE and ONLY SOAP, with CUTICURA, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Even The Courier-Journal is moved to remark that Mr. BECKHAM made a serious mistake in pardoning gambler ED. ALVEY. Br'er Marmalade is still to be heard from; but Br'er DULY will be heard from "still."

ONE of the reasons advanced by Mister BECKHAM for the pardon of gambler ALVEY was that, if gambling must exist, it is better to have "competition" in the business; and yet in another place he says he pardoned ALVEY on his promise "not to violate the law again." If ALVEY keeps his word, it will leave WENIMORE in complete control of the gambling industry in Louisville, thus defeating the acting Governor's desire to encourage competition.

THE Cynthia Demorest, more power to it, appeals for the upbuilding of its city, and among the multitude of good advice it gives, bids the people to "lay aside small, mean politics." That's it, Br'er ALLEN. If the people of Kentucky would only learn to work at politics on election day, giving the remainder of the year to business affairs and the cultivation of friendly relations with outside capitalists who would come to the state and invest their money, Kentucky would soon take her proper place at the head of the prosperity parade.

Mr. Devine, Agent for John and Henry Stephens of Newport, sold to Nancy and Charles Hiss a house and lot on Chester street, Sixth Ward, for \$100.

Pan-American Outlook.

The Big Exposition Promises to Exceed All Expectations.

Exhibits From All the States and Countries of the Western Hemisphere—More Than a Score of Great Buildings to Shelter the Displays.

The Pan-American Exposition at Buffalo during the summer of 1901 will be not only big but beautiful. In many ways it will excel every similar enterprise in the history of the world, and chief among its merits will be the fact that it can be easily seen by all and comprehended by all. System and originality are conspicuous in every detail. The revised plan shows a plot comprising 350 acres. From north to south

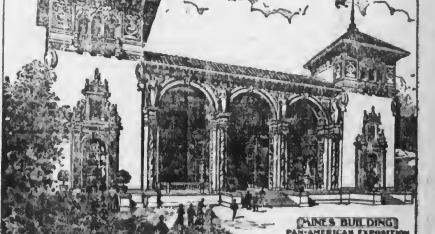

the grounds are about a mile and a quarter and from east to west half a mile. The grounds are situated in the northern part of Buffalo and are easily reached either direct or by transfer ticket by all the electric car lines east of Buffalo. The city's perfect water supply system. On the northern side are the tracks of the New York Central West Line, to which the 2d main railroad entering Buffalo will have access during the Exposition. The southern portion of the grounds is a part of Delaware Park and contains a lake of irregular shape more than half a mile long, indicated by letter H on the ground plan. This part of the Exposition plot is already very beautiful, the city of Buffalo having spent many thousands of dollars in planting shrubs and trees of many rare species and in producing landscape effects that give to the city a beautiful vista from every point of view.

The main southern entrance of the Exposition is on Lincoln Parkway, indicated by the letter A. At the left of your enter will be beautiful Albright Art Gallery, built of white marble and costing upward of \$300,000. This is the gift of a citizen of Buffalo, Mr. J. J. Albright and will be a permanent fireproof building for public use devoted to art. On the right is the beautiful new bathhouse and shelter

flowers and many plants of a highly decorative character will be displayed throughout the courts. The grounds outside the main group of buildings are also to be richly adorned with horticultural and floral features. The horticultural exhibits, to which about seven acres are devoted in the southern part of the grounds, will contribute to the decorative effect. In this exhibit will be over 500 beds, many of them containing hundreds of plants of a single variety of flowers.

This Exposition will stand pre-eminent in point of original sculpture. There will be more than 125 groups of magnificent original works by some 50 or more American sculptors of note. This grand scheme is under the personal direction of Karl Bitter, who was in charge of a similar work at the World's Columbian Exposition at Chicago.

PAINE'S BUILDING PAN-AMERICAN EXPOSITION

Owing to the nearness of Niagara Falls, with its unlimited power, the large area of the courts and the arrangement of the buildings about these courts, it has been made possible to present an electrical display far more elaborate and grand than any before conceived. Some 5,000 horsepower and more than 200,000 incandescent electric lamps will be employed in this wonderful illumination. The centerpiece of this display will be the Electric Tower, a structure of superlative beauty standing between the Plaza and the Court of Fountains. This glorious work, designed by John Glen Howard, is 375 feet high. Its southern face is a beautiful cascade, 30 feet wide and 70 feet high, falling upon a terraced base. This cascade and all the fountains of all the courts will be richly illuminated at night in a great variety of colors, giving an effect of fantastic and enchanting beauty.

Standing in the Fore Court (B) and looking north, immediately in front of the Triumphant Plaza (C), this bridge will be one of the most beautiful of the Exposition, having four great piers and a great number of sculptured groups modeled by Mr. Bitter and others. Crossing the bridge, we may see on the extreme right the

What Kentucky Needs!

ANOTHER STRIKING CHAPTER

Every Voter in the State Should Read, and Act For His Own Welfare.

WAGING WAR ON CAPITAL.

A Keen Knife Raised Against Every Enterprise.

PRESENT TAXING METHODS RUINOUS

Leitchburg Morning Herald.

We called the attention of our readers the other day to the very striking address made by Colonel William A. Hemphill of Atlanta before the National Business League at its late meeting in Chicago. It was a most gratifying statement of the growth and development of Georgia and the Southern states, using the "Southern States" as meaning those below the Southern line of the old border states, possibly, however, including rather than excluding Tennessee. The growth and development of Missouri has been as remarkable. But as Kentucky, Maryland, Delaware and Missouri have not suffered from the devastation of war and perpetual warfare and were not harried and destroyed by the war and did not pass through the pangs and desolation of reconstruction they were not included in the scope of that address.

The matter we desire to call to the attention of our readers this morning is that Kentucky, who did not suffer much from the devastation of war and nothing from reconstruction, has not improved with the rapidity which has marked the increase of wealth in these Southern states; whereas there was every reason why the growth should be more rapid. The problem of the duplex races is one of gravity, not of danger, in Kentucky. The proportion of white to black is about 6 to 1; and in many counties of the state there are so few colored people that it does not amount to anything. Kentucky rather than any other property, whatever the value of that was. The emancipation of slaves struck from her tax list about \$50,000,000, reducing her nominal wealth from over \$200,000,000 to about \$150,000,000; but there was a vast difference between striking this from the tax list and the destruction of the property. They ceased to be chattels, but they remained laborers. They were no longer taxable as property; but they were producers and wage-earners. Whatever there was of real wealth remained in the state; and was lost to the individual slave holder as property. It was not lost to the state as productive force. Otherwise Kentucky did not suffer from the war in its material respects. Perhaps the amount of money spent in Kentucky by the Federal authorities during the war was larger

than the total loss occasioned by the war. When the war ended Kentucky exhibited more wisdom, patriotism and kindness than any other state in the Union. She "at once repeated every obnoxious, discriminating statute. She restored her Confederate sons to equality with her Federal sons. There was hardly a day after the final surrender that Kentucky did not welcome to their homes her sons who had served under the Stars and Bars. The era of kindness began at once; and we owe a very great debt of gratitude to that sentiment of the Union party which fortunately was in control of Kentucky at the close of the war. The spirit represented by Bramlett, Buckner, Hardin, Houston, Kinkaid and various others, was a spirit of fraternity and was indeed a most wise and beneficent spirit. Kentucky began to prosper immediately. The Democratic party obtained possession of Kentucky at once; and its policy was liberal and wise. The common school system was enlarged; fair encouragement was given for the construction of railroads; and for some years nothing was done which deserved criticism. But during the last fifteen years Kentucky has not grown and has not developed. The state has apparently gotten into the old eddy, where she was formerly. Huntingdon came into Kentucky and spent millions of dollars in building the Chesapeake and Ohio railroad. The state, which was on the threshold of a most satisfactory development. The Democratic party fell into the hands of reactionary leaders.

There was absolutely nothing which justified an attack upon the corporate form of the state. The needed for capital; we did not have enough of home capital for our purposes. Every encouragement ought to have been given to the railroads; and for some years nothing was done which deserved criticism. But during the last fifteen years Kentucky has not grown and has not developed. The state has apparently gotten into the old eddy, where she was formerly. Huntingdon came into Kentucky and spent millions of dollars in building the Chesapeake and Ohio railroad. The state, which was on the threshold of a most satisfactory development. The Democratic party fell into the hands of reactionary leaders.

from coming into the state. If there is any talk about investing in Kentucky the Tax Assessor and the Tax Collector, the Black Tax Assessor and the Black Tax Collector, the Boards of Equalization, the Railroad Commission, the Auditor, the Prosecuting Attorney, the County Attorney and the County Attorneys of the various counties pick up their ears. They await the feast from afar. Fiscal Courts are called and enter into contracts with gentlemen who collect the taxes with large contingent fees. We have the statement that "where the chair is there the vultures gather." In Kentucky the vultures gather before the living organism becomes a carcass. These officials are all honest men; they are clever gentlemen. They are all ready to serve the state; but the net result of all the legislation and the modes of taxation and the amassing ways in which it is done keeps foreign capital out and drives home capital away.

Recently it is said that the Board of Valuation and Assessment has allotted to the various counties tax on franchise and other things—sums that will amount to nearly six hundred thousand dollars. How many of these in the shape of contingent fees and commissions—goes into the pockets of very clever gentlemen we know not. It is a large sum for one state for the state to lose; but the publication all over America of this new and worrisome burden will turn the mind of every capitalist away from Kentucky.

We live by the sweat of our face. The laborer is our brother. The foundation of wealth upon which all life is built in a state is prosperous labor. Contented labor is the first, prime requisite of progressive prosperity. We represent in these statements and protests the true interests of him who labors, whether he labors on the farm, in the shops, or in any other vocation of life. He who produces bread stuffs must find a market where laborers have money to buy what they need to eat. He who goes to those markets to buy must have an employer who pays the wages out of which the necessities of life are purchased. If there be no prospering capital there can be no labor at high wages. This is so axiomatic that it is always an inexplicable problem to us when we hear of laborers striking against the introduction and liberal encouragement of foreign capital.

Capital is always at the control of labor; because the number of laborers is always greater than the number of capitalists that the ballot box, the legislative bodies and the Courts can at any time be conquered by those who work for a living; and if capital is invested in a state it remains permanent. These are questions much above mere partisanship—far more important than the mere personal equation. It does not make very much difference, except to the excellent gentlemen who are aspirants, who happen to fill our offices. Public affairs are fairly well managed here, where we claim to be a republic, and get the election. But it does make a vast difference whether the spirit of our legislation and the mode in which money is raised and the protection of those who have given protection, security and encouragement to induce capital to come into our midst.

Arresting Alleged Insurgents.

It is persistently rumored that Col. Wilder, chief of the Manila police, Capt. Canine, in charge of the Manila secret service, and Lieut. Gillespie, will be ordered to rejoin their regiments. No orders to this effect have yet been issued. Gen. Davis, provincial marshal of Manila, denies having recommended these changes. The officers themselves assert the stories are circulated by persons interested in trading with the insurgents.

It is charged in certain quarters that the police are overzealous in their efforts to suppress the insurgents.

No notification has been given concerning the trial of Carman, Carman and others who were charged by the police with charges of dealing with the insurgents, and the police have been ordered to refer all cases in which they shall subsequently obtain evidence to the provincial marshal general for report to the military governor for investigation before making arrests.

Trade with these islands has been considerably hampered by the war but the Morven's arrival is taken as an indication that the imports will soon become as large as before the beginning of the war.

Fire in the Arlington Hotel. Washington, March 6.—A fire broke out at the Arlington hotel Tuesday afternoon caused by the crossing of an electric light wire. It occurred in the cupola or tower on the roof of the building and was soon extinguished. The damage, which was comparatively small, was confined to the tower and the apartment immediately below it.
